

INVITATION by the working group Environment & sustainability

Preview: Rondtable - Agroecology

CONTENT

Following the success of the round table on bio-diversity in September 2019, the event will be an opportunity to learn more about the current status of agroecology, the existing needs and gaps in the sector and avenues of collaboration. The event, co-organised by Fondation Salvia, Fondation Lunt, Fondation Charles Léopold Mayer and Fondation Primat, will see the participations of a series of speakers including Pierre Marie Aubert (IDDRI), Blanche Magarinos-Rey (Artemisia Association), Francesco Ajena (IPES-Food), Amadeus Zschunke (Sativa et Bioverita). This event will be the perfect opportunity to gain a better understanding of the challenges and present the bigger picture of the issues at stake.
